DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 – 24 & 27 – 30, drawn to a resonator apparatus and associated method for detecting using a resonator device, classified in class 422, subclass 68.1.
- II. Claim 25, drawn to a piezoelectric apparatus, classified in class 422, subclass 82.01.
- III. Claim 26, drawn to a paired bulk film acoustic resonator apparatus, classified in class 422, subclass 82.01.

The inventions are distinct, each from the other because of the following reasons:

Inventions I – III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation. For example, the apparatus of invention II, as recited in claim 25, specifically requires the incorporation of a pair of electrodes in order to operate. Whereas, the apparatus of invention I, as recited in claim 1, does not specifically require this feature in order to operate. The apparatus of invention II, as recited in claim 26, specifically requires the incorporation of a reference bulk film acoustic resonator. Whereas, the devices of inventions I and II, as indicated by each of their base claims, do not specifically require the incorporation of this feature in order to operate.

Because these inventions are distinct for the reasons given above and the search required for each of the groups is different, restriction for examination purposes as indicated is proper.

Art Unit: 1743

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
